

Artoni

Founded in 1933 as a family business in the town of Guastalla, today Artoni is a leader in the Italian transport and logistics industry with over 13,000 customers and widespread facilities in Italy and Europe. Artoni offers a great variety of services for domestic and international shipping. It develops solutions for logistics and supply chain management and provides technological, organisational and process engineering advisory services in accordance with Lean Six Sigma concepts.

MISSION

To exponentially improve our customers' competitive advantages by integrating our industrial assets in a full range of logistic services thanks to in-depth knowledge of business process management and the use of leading edge technology.

VALORI

- Customer-oriented service
- Innovation
- Transparency
- Sustainability

ROAD AND RAIL ITALY / EUROPE

Our road and rail network guarantees door-to-door service in Italy and Europe. Parcels, groupage, pallets, full truck load (FTL) and partial load (LTL) consignments, plus personalised shipping solutions.

CONTRACT LOGISTICS

Our attention to logistics requirements means that we can optimise your processes, provide services that meet your needs, offer a choice of warehousing solutions (traditional, automated and with dedicated areas) and integrate these services into your IT system.

AIR & OCEAN GLOBAL FORWARDING

We deliver your goods anywhere in the world as easily as we do in Italy. We offer the most straightforward, flexible and complete solutions for your worldwide shipping requirements.

CONSULTING

Thanks to the experience we have acquired, we think of ourselves as your partner in the development of your business by helping you to re-define your logistics and transport processes and to design your path towards integration, all with a view to improving your competitive advantage.
