

Distribution for large retailers and retail chains

Specific preparation and detailed information about the whole supply chain are essential for providing reliable services to large retailers. Each store has its own procedures for scheduling and taking delivery of shipments.

Thanks to its experience based on many years of collaboration with leading retail chains, Artoni can provide Track and Trace data promptly and deliver shipments on time, as instructed by the sender or as agreed directly with the consignees, depending on their logistics requirements.

THE ADVANTAGES

- A simple booking procedure for shipments
- Optimisation of shipment flows
- Reduced costs and delivery delays
- Simplified logistical relations with consignees
- Shipment tracking and monitoring
- Track and Trace

SERVICES

Artoni's Distribution service for large retailers and retail chains includes:

- Up to five calendar days of storage for goods on hold at no charge: the sender can organize the flow of shipments to the retail chain at no additional expense
- Booked delivery date: delivery of goods on the date specified by the sender
- Advance delivery notice: Artoni customer service calls the consignee to agree on the date and time for a delivery

All Road and Rail – Italy / Europe optional services are also available for the distribution service for large retailers and retail chains, in particular:

- EDI (Electronic Data Interchange): digital transmission of shipment data to Artoni, ensuring data accuracy
- Digital proof of delivery (POD) available to registered customers at Artoni Online
- Digital shipping label: customers can print Artoni barcodes directly in their warehouse and can include them on product labels to guarantee correspondence between the transportation documents and the packages of the same shipment.
- Track and Trace: registered customers can monitor the status of all shipments at Artoni Online
