ARTONI TRASPORTI: "THE ROAD TOWARDS GROWTH"

The 2014-2018 industrial plan, with investments and further development of "customer-related services" has now been presented

REGGIO EMILIA, 4 March 2014 *"We've got the right people for the development-oriented projects in our 2014-2018 industrial plan. We're facing major upheavals but our history, which began in 1933, is the best confirmation of Artoni's ability to change its course of action to suit the market".* This is how Anna Maria Artoni, Vice-Chairman of Artoni Trasporti, Reggio Emilia, closed the 2014 Business Meeting, where the "Artoni team" had come from all over Italy to develop a road map focused on growth to be achieved thanks to new investments.

"New services and additional improvements to our already high level of efficiency" added CEO Andrea Nasturzio, "confirm that we are honouring our commitments, while favourable profitability margins allow us to look ahead knowing that much of the work has already been done".

Beginning in 2014, the industrial plan forecasts an average 3-4% annual increase in turnover compared to 2013, with margin up by almost five points during the plan years.

Development of new operating methods, our recently launched Pharma service, with temperature-controlled delivery of pharmaceutical products and adoption of paperless traceability systems are further elements in a "customer-focused" policy to which Artoni has been dedicated for the past 80 years.
